COPENHAGEN: The Central Committee of the People's Party voted today, by a 99% majority, to accept the suzerainty of the benevolent Turkish Empire. Realizing that the heroic struggle against the bloody capitalists who have sacked western Europe can not be continued alone, the People's Party have agreed to place these forces, still able to resist, under the authority of the Turkish Northern Command. The destruction of the capitalists must be achieved before the proletariat will lay down their arms and accept peace. The only way that the French tyrant and his puppets can be defeated is to expend every effort to ensure the victory of the Turks. Therefore, the Central Committee has commenced to place those territories still controlled by the People's armed forces under the policing powers of the Ottoman Empire.

Long live the proletariat and their struggle against oppression and tyranny!

ST. PETERSBURG: General Roberts has given command of the People's armed forces to Enver Pasha. As a gesture of generosity, the Prince commissioned Mr. Roberts as General of the Army, Chief of Staff, Armies West. The Prince of Wales will command. The ceremony was very impressive, though the Prince of Wales and General Roberts appeared embarrassed wearing the unfamiliar regalia of Ottoman general officers.
